ABSTRACT

This 1992 report from the Alabama Public Library Service includes directories of public libraries, single-county public library systems, multi-county public library systems, and multitype library systems in the state, as well as cross-references providing access to the libraries by name of the library and librarians. Individual library statistics present data for fiscal year 1992 on print and non-print resources; income; expenditures for salaries, materials, and other needs; and circulation, interlibrary loan, reference, and other library services. Library rankings by size of staff, total volumes held, circulation, total income, and expenditures (total, local per capita, and total per capita) are presented. (KRN)
